

Training in high school

research paper services

1. Moral readiness.

Are you already a student, and the student is still not feeling? Are you afraid of future uncertainty? Then you have problems with moral training. Of course, all new for a person is stress who would not say there. For those who come to study from another city - stress doubly. However, following our ordinary tips, you will become more relaxed.

To begin with, in the summer, after you understand what they did, and you can also, ask how to ask your friends, how to be a student? Surely you have friends and friends who have long been learn at the university. Only you ask specific questions, those that you really interest. Questions like, "Well, how do you study?" You will not help you better understand student life.

Instead, ask: "How much money do you need for a week?" Or "How much clothes take with you?" Such questions will help you form at least some idea of student life. It is very important to do, because if you at least in your head you will represent what you have to feel in your skin in a few days, it will calm you, and you and it is necessary. It is necessary to remove the nervous tension.

For example, when you bathe in a place known to you, you are not afraid of going. And when are bathing in an unfamiliar? Surely carefully go into the water, afraid to face the leg. Also with learning. If you imagine what you have to do, then you will "dive" in student life with a greater courage and pressure :)

Therefore, to internally calm down, talk with already experienced, experienced students who will tell you about student life all that interests you. You can also visit the website of the Sovertvest. RF often, because we also try to help you here. We even do not rest in the summer - we work for you!

2. Intellectual preparation.

Study at the university involves great mental loads. Here you have to learn everything for the smallest details of your future specialty. Therefore, it would be a very good step on your part, if you get acquainted with the approximate list of disciplines in August, which you have to study throughout your student life. It is also an important stage in training for high school. List of items You will most likely be able to find on the official website of your higher educational institution.

And it would be gorgeous, if you were for the remaining time before starting study at least in a brief version, they read some literature on the subject that you have to study when you come to the university in September. In order not to be completely "green" and injecting, so to speak.

Therefore, if you do not want to "overheat" from the loads that you have to feel at the university, then slowly (5-10 pages per day) start reading the literature according to your future learned subject.

First, as we have already said, you will even know a little about what you have to study, but, secondly, reading will help you tune in to the training paw.

Do you know why many freshmen are deducted immediately after the first session, and even before? Because they could not realize that they were now studying at the university, where you need to learn, and not to fully fool. There was no guys infusion. Therefore, do not repeat other people's mistakes, because you do not want to lose your place at the university, obtained by hard preparation for the exam. If we speak Russian, then do not stop at the very beginning of your learning.

3. Financial training.

As we wrote above, ask your friends how many money they need to live normally. It is important to you to know how much money to take with you to study, if you live in another city.

Tell your parents so that they will be swept away if you have a problem with money in your family. But we believe that your parents know that now they need to give you a fairly large amount of money. Well, if you learn not so far away from your home, and you will have the opportunity to come back home for every weekend. And if you come to study from afar? Therefore, it will look in advance on the Internet, how much will cost a travel in the city, how much you need to pay for the hostel, etc.

Also, do not forget that the lion's share of your money will "eat" feeding in the hostel. Therefore, pay special attention to this article of your expenses. Also do not forget that you will not only learn, but also rest. Therefore, this fact also consider when you, together with your parents, will decide how much money you need, in order to live normally and with relative comfort to live in another city.

Sometimes many students take the documents from the university due to the fact that they cannot get a new place. After all, living in a foreign city, and even without money is just unbearable. Therefore, spend money allocated by your parents with the mind. Try to distribute spending evenly throughout the week so that it is not to come to her end, that you have nothing to buy yourself.

Also, it would be very good for you to have your pocket money, so that if anything has always been a cash supply. Where to earn them, you ask?

4. Ensuring yourself with everything necessary for study.

The last of the stages of your training for learning in the university is the purchase of all that you need that you need to live in another city and study. Take care in advance about notebooks, handles, clothes and other most necessary things. It would also be very good if you bought a netbook for study. Why netbook, not, say, laptop? Answer You will find here: Netbook - Faithful

student assistant!

During your studies at the institute, you will have to print soylimo-unthinkable the number of different abstracts, coursework, etc. So without a computer in the modern university there is nothing to do. Plus, buy a portable printer to it. After all, you will need to print your work somewhere.

If you have some kind of chronic disease, then do not forget to take medication you need. Well, what else can you advise? In principle, we went through the most basic moments of your training for high school.

Most importantly, from the very beginning of your student, do not lead a rampant life, try at least half a year. First, light in a new place, and then get a maximum of pleasure from student years!
